

Jesus is Alive!

Three days after being executed by crucifixion, Jesus Christ astonished His friends, followers, and executors by emerging from His grave, alive! This event split history in two and confirmed that Jesus was who He said He was, the Son of God. Jesus continues to transform lives allowing all who ask to be forgiven of their sins, reconciled with God, and assured eternal life with Him in heaven.

The members of Christian Faculty & Staff Association (CFSA) at TTU take this opportunity to proclaim that we serve the living Savior, Jesus Christ, and encourage everyone to know Him personally. We would be glad to talk to anyone who has questions about Him.
